

FRIDAY, MAY 2nd SET FOR CLEAN-UP DAY

Union Service In The Elite Theatre Sunday War Vets Will Parade

The Wainwright District Local of the Great War Veterans Association, will parade on Sunday afternoon to a united church service in the elite theatre. The parade will start at 10:30 a.m. and will leave for the west on Thursday.

The Rev. H. Wilson, vicar of St. Thomas, will preside over the following services:

Opening hymn: "O God our Help in Age of Man."
Scripture reading: Rev. J. H. Thompson.
Prayer: Rev. J. H. Thompson.
Address: Rev. J. H. Thompson.
Hymn: "Rock of Ages."
Benediction: Rev. J. H. Thompson.
Closing hymn: "The Good Fight."
Benediction: Rev. J. H. Thompson.
The service will start at 8:30.

IN MEMORIAM KILLED IN BATTLE OF YPRE

Ex-Councillor E. F. Mott, who fell in the Battle of Ypres in 1916.

SCHOOL NOTES

On Wednesday last P. A. A. Peck, who gave a most interesting address to the students of the High School, told them that at the second battle of Ypres he had a very close experience of prison life in Germany. He was vividly and humorously narrated, and was listened to with most attention by the scholars. We trust that Mr. Peck will give a large audience an opportunity of hearing his narrative.

A week previously James Corporal R. B. Hayden had given the scholars an account of the great allied attack of August 8th. It was most interesting to hear the accounts from within Germany and the other from without of the great events preceding the final collapse of the central power.

Baseball and basketball are the order of the day for boys and girls respectively. Live teams have been organized in both sports.

Travel stamps are having a ready sale nowadays. Miss Margaret Jones' department leads in purchases for the past week.

PRINC. BRODIE SUBMITS REPORT FOR MARCH

The following is the report of the principal, Mr. Brodie, of Wainwright schools:

Wainwright School Board:
Gentlemen: Herewith I submit my report for March 1919:

Attendance: Enrolled, Av. At. P.C.
W. S. Brodie 18 25.5 90
Miss McAllister 20 25.6 75.5
Miss G. Johnson 22 30.3 91.7
Miss C. Johnson 16 41.5 91
Miss E. F. Davis 40 34.9 92.1
Miss Connolly 51 36.8 71.1
Total 217 128.8 89.4

The enrolment is lower than that of last month. Colds contributed largely to this.

Charge of Staff—The primary department for part of the month was in charge of Miss Martha Deligan as substitute. Later Miss K. Connolly assumed charge.

New Inspectorate Formed

This district was formerly part of the Tofield Inspectorate. A new inspectorate district has been formed extending from Bruce eastward to the provincial boundary and including about 16 or 20 miles north and south of the railway. Our new inspector, Mr. Fowler, will make his headquarters in Wainwright.

Playgrounds—The swings on the playground are in need of new ropes.

There is a movement on foot to form a basketball league of the young ladies of the town. A request has been made to allow them the use of the school basketball grounds during the evenings, provided they supply their own ball and make good any wear and tear on tapes, etc.

W. S. BRODIE,
Principal of Schools.

CLEAN UP WEEK FOR WAINWRIGHT

Make this clean-up week.
A general clean-up should be made to make Wainwright more beautiful, more healthful and a happier place to live in.

It is proposed to have a general clean-up of the town, and to make this effective it is necessary that the civic departments concerned in this work, should have the cooperation and assistance of every citizen of Wainwright who has any civic pride, and who desires to make our town more beautiful, more healthful and a happier place to live in.

During the next week therefore, let everyone who has a back yard, clean up the rubbish accumulated through the winter months, burning what is combustible and placing for removal the remainder, close to the lane where it can be conveniently and quickly transferred to the wagons by the scavenging department. Carts should be taken, that no fire is started during windy weather, and that they should be carefully watched and fully extinguished when burning is complete, in order to eliminate all danger to surrounding buildings.

Repairs to fences, gates, outbuildings, etc., and a more general use of paint and whitewash will also add greatly to the appearance of premises and incidentally improve the health and happiness of the citizen generally. The expenditure of a little energy in painting shrubs and trees, cultivating flower beds and vegetable gardens during the evening hours, will also yield substantial dividends in health and happiness to the individual citizen who practices this form of recreation. Try it as a health measure. It costs less than a health insurance policy or other medicine or medicinal agencies.

A USEFUL SOCIETY

Organizations are numerous these days, but there is always room for another good one. There is room for the War Savings Society, because there are few possessing a better purpose. To promote thrift is desirable both for the individual and the nation. It is one of the good things under the sun.

The War Savings Society is necessary in the Canada, because the people of this country must save. The Thunder Bay organization says: "Our experience so far has taught us that to make the campaign a steady success, the War Savings Societies must be formed, and we are bringing a great deal of time on this branch of the work."

PT. J. WHITTLE ON WAY TO WAINWRIGHT

From a list published by the Bulletin the names of 140 J. Whittle and Bert A. H. Harper, who were notified they arrived at Hatzlitz on the Olympic and will leave for the west on Thursday.

4,245 Approved

Ottawa, April 21—A large percentage of the returned soldiers who have applied for the benefits of the Soldiers' Settlement Act in the four western provinces have been found to be qualified to engage in farming at once. Figures given out today by Mr. W. J. Black, chairman of the board, show that from February 10 to April 15, since the new loan provisions came into effect, 4,245 veterans have been approved by the agricultural qualification committee of British Columbia, Alberta, Saskatchewan and Manitoba.

Quite a large number were found to have had insufficient agricultural experience to warrant the committee in placing them immediately on the land, and they will spend one year at work on farms managed by successful farmers who are interested in returned soldiers. Lists of such approved farmers are posted in the provincial offices of the soldiers' settlement board.

The figures of applications approved for the four provinces are: British Columbia, 421; Alberta, 1,341; Saskatchewan, 1,104; Manitoba, 1,129.

FABYAN NEWS

The Battle river is quite high now, and when Geo. Clapp of the Lewisville S.D. attempted to ford it below Crossley on Sunday evening, 20th inst., he was swept down stream over the rapids, his fine brown team of drivers being drowned and he himself, although a swimmer, sank a struggle to get to safety. On Monday he rescued his rig and harness but lost his overcoat and several things out of the rig besides his horse.

On Easter Monday the D&K outfit of 180 horses that have been wintering in the Battle River valley and putting up at J. J. Armstrong's valley farm, returned to Greenwood, B.C., near near Inverville. Steve Crozier drove the prairie schooner, containing the camp-kitchen outfit, Bert Long, Frank House and Louis Shoopers on horseback driving the bunch; the Armstrong boys also riding with them to a twenty mile start on their 150 mile trek.

James McBride, who was reported dead of flu in the military hospital at Edmonton, surprised his sorrowing friends by turning up as good as new, for you Jimmie—keep right at it.

Jack Brown, head inspector of Wainwright, was out Good Friday inspecting the D&K outfit before they left.

Mr. Geo. Crozier has purchased a new top buggy.

Mr. and Mrs. Emil Skogg have returned to their farm after being absent for a week.

BAND BOYS WILL ARRIVE HOME FRIDAY

The 5th regiment which arrived in Canada last week are now on their way west. Telegrams received in town say that they left Winnipeg Tuesday morning. They will arrive in Regina Tuesday night and will be mobilized there. As the 5th is a Saskatchewan regiment a big reception is being tendered the members of the regiment and a parade will take place. The Wainwright boys will proceed home as soon as they are mobilized and will arrive here Friday or Saturday.

The band of the 5th regiment was recruited from Wainwright and went away under the leadership of H. C. King. Later transferring to the 5th Bn. Among the returning members who are definitely known to be coming are Pte. John Alderman, Pte. Cecil Ward, Pte. Frank Stett, and Pte. Fred Pawling.

The town will be out en masse to welcome these returning heroes.

Mr. John Thompson of Bridge View ranch has been ill for several weeks with erysipelas in the head. J. M. Armstrong has been laid up for some time with rheumatism. Mr. Sterne, builder, after struggling the winter with Mr. and Mrs. Peter Voron, left for Edmonton to begin spring operations.

MOOSE JAW STRONG FOR DAYLIGHT SAVING

MOOSE JAW, April 22.—The advocates of daylight saving time today won a victory in the town of Moose Jaw. The town council has passed a resolution to support the daylight saving time movement.

FANTASTIC LAW NATIONALIZATION RUSSIAN WOMEN

LONDON, April 15.—The law providing for the nationalization of women in Northern Russia has been suspended in one province as the result of popular outcry, according to information reaching London from Stockholm. The commissary of Vladimir, by decree, appointed a committee of women who are to inquire into the operation of the law, and make a report with the least possible delay. His action has been approved by the local Soviet.

The Krasnaya Gazette publishes an account of the results of nationalization. The system provides that every girl on reaching the age of 18 must register her name in the bureau of love, after which she is compelled to select a partner from among men between 18 and 50 years old. The law led to lamentable confusion, says the Gazette, as "fantastic notions" as to personal inviolability.

A few days after the Soviet's decree, which women very generally ignored, two men known to nobody arrived in the town, and seized the two daughters of a well-known non-bourgeoisie commissionaire, declaring they had chosen them as wives and that the women, further, cynicism must submit, as they had not observed the registration rule.

"Comrades Yablonsky and Gurik" who sat as judges on the claims, decided the men were right, and the girls without further ceremony, since been heard of by the village folk. This says the Gazette, was done in the name of the nationalization of women.

Many other instances of the fantastic operation of the law, not to speak of its inhumanities, are cited by the Gazette. Enthusiasts for nationalization, naturally all males, raid whole villages, seize young girls and demand proof that they are not over 18. As this proof is difficult to give many of the girls are carried off, and there have been suicides and murders as a result.

MINISTER OF MUNICIPALITIES UNABLE TO PAY VISIT ON 20th

Word was received by Mr. H. P. May Tuesday that the Hon. A. G. MacKay who was asked to visit Wainwright on Saturday, could not come.

Mr. MacKay intended to address the members of the board of trade and other bodies, on the municipal district hospital scheme.

At The Elite Theatre

How two couples, one married just three months, the other hoping to, some day enter that blissful state of dreams and other things, have a rather different time and get things badly mixed up, will be told in the Elite Theatre at the grand concert on Friday night. Five local stars will do the mixing and will later unravel the tangle to the satisfaction of all.

This will provide the highlight for the beautiful and soul stirring musical poem "Ruth" which Grace Church choir assisted by other Wainwright singers and the Wainwright orchestra will stage that evening.

There are to be the two principal corners of the aesthetic feast side dishes and sauces of the solo, tableau and negro plantation song type will complete the menu.

VIKING FOOTBALL CLUB ISSUES A CHALLENGE

The Viking Football Club has reorganized and is open for games home or away, Association football. Interested parties should communicate with the Secretary M. Lauer, Box 13, Viking.

account of the results of nationalization. The system provides that every girl on reaching the age of 18 must register her name in the bureau of love, after which she is compelled to select a partner from among men between 18 and 50 years old. The law led to lamentable confusion, says the Gazette, as "fantastic notions" as to personal inviolability.

A few days after the Soviet's decree, which women very generally ignored, two men known to nobody arrived in the town, and seized the two daughters of a well-known non-bourgeoisie commissionaire, declaring they had chosen them as wives and that the women, further, cynicism must submit, as they had not observed the registration rule.

"Comrades Yablonsky and Gurik" who sat as judges on the claims, decided the men were right, and the girls without further ceremony, since been heard of by the village folk. This says the Gazette, was done in the name of the nationalization of women.

Many other instances of the fantastic operation of the law, not to speak of its inhumanities, are cited by the Gazette. Enthusiasts for nationalization, naturally all males, raid whole villages, seize young girls and demand proof that they are not over 18. As this proof is difficult to give many of the girls are carried off, and there have been suicides and murders as a result.

Think Canada's Tillers Of The Soil Are Lucky On Wheat Prices

Word has been received by H. Cook that Norm is now out of hospital and will take the first boat for home that he can make.

JOSEPH CAMPBELL PAID SUPREME PENALTY TODAY

The execution of Joseph Arthur Campbell convicted of the double murder of Sam Zappier and Frank Beeves took place this week within the courtyard of the provincial penitentiary at Port Saskatchewan. The prisoner displayed no weakness and marched to the scaffold firmly and without hesitation. He made no statement in connection with his guilt, either on the gallows or in the death cell.

In the sternest and most disagreeable duty that falls to the lot of a sheriff, John Rae deserves highest credit for the efficiency of all his arrangements. All preliminaries were carried on without a hitch and after the procession left the death cell scarcely a minute and a half elapsed before the sentence was carried into effect. Following the execution a coroner's jury empaneled by Dr. Mooney, of Port Saskatchewan, returned a verdict of "justifiable homicide."

Resigned to Fate

Since his confinement at the Port, Campbell had been in bad mental condition but about a week ago he brightened up and seemed to resign himself to his fate. Early this morning he told Rev. Father Plus O.F.M., who attended him throughout the night, that he was weakening and did not know whether he could go through bravely. After the last sacrament was administered, however, he regained his self possession.

The jury, police officials and sheriff's officers were on hand at five o'clock when final arrangements for the execution were completed. About 5:40 the prisoner was marched through the guardroom to the courtyard entrance, and the witnesses were admitted to the scene of the execution by the warden. The procession was then formed with Campbell in the centre, supported by his spiritual advisor.

The condemned man walked to the roughly erected gallows with head held high. Some were there who pitied, some who feared and some who hated for the sake of two sorrowing widows. But to those who felt no hatred it was thing to say, but shook his head in answer. The halguman, with practiced fingers drew the black cloth over his head. As the priest was in the midst of the last prayer the executioner grasped the fatal lever. A black flag ran in the top of the pole and Joseph Arthur Campbell, murderer, wastrel and gunman, was dead.

The body was then cut down and viewed by the jury after which it was taken away by the Franciscan Friars for burial.

Under all the difficult circumstances the greatest care and expedition were used: as an efficient execution of a death sentence is not such an easy task as the sheriff's authority extended.

Montreal, April 19.—A special to the Gazette from New York this morning says:

"If it has been finally determined to set no government price for 1919 on Canada's wheat, the decision is likely to prove a far seeing conclusion to promptly arrived at." With the British farmer receiving a guaranteed price of \$1.25 per bushel and the American farmer \$2.25 per bushel the price of wheat still remains a world question and a rather sticky one, Chicago says Winnipeg quotation.

"No matter what the government may do the moment it comes in contact with a free export price in world markets it must yield to the operative law of supply and demand, which automatically sets its own price."

"Both the British and the United States governments will have to make good the difference between the open market price and the guaranteed price."

"There is a world question. English crop of say 15,000,000 with a government price book of it, will not count for much in a world market with a turnover of more than three billion bushels. Not for that matter will the United States government price do much more than yield a substantial premium over any probable price of wheat."

"Our wheat, which is reported in perfect condition, is expected to be a record yield, but the harvest is some months off. The season has been mild and open in the greater part of the winter wheat belt. Some reversal of form, a change in the weather, would not be abnormal following an abnormal autumn and winter."

"However, that may be, and whatever the price may be, so and so to be contemplated more than the Canadian farmer, his price of \$2.25 per bushel, is not a price that is available. Better have than \$2.25 at the close of a season of great prosperity than later on when the dollar may not look so small. The farmer is to be congratulated who can say 'this price for 1919 have not been based on a government gift, but have been yielded solely and purely by economic conditions. He will be better equipped to face a later period of competition when government characters of product prices and the United States and British levels will be utterly out of the question.'"

Garneau-Goddard Tangle at Gilt Edge

Belshewski, Soviets, socialism, etc., were going on in full swing at a meeting held in the Gilt Edge School on Tuesday evening, when Comrade Garneau and Ed. Goddard locked arms in a deadly fight.

Several cars of veterans left town to attend the meeting, and they debated turned out a free-for-all specifying scramble. The arguers dwindled down to four men, Mr. Garneau, Mr. Goddard, Rev. Priestley and Mr. Horn.

The editor with three returned soldiers endeavored to go to the meeting, but owing to a misunderstanding that it was to be held in the Orange Hall, did not arrive. After wandering all over the Gilt Edge country from the river to Vermilion they returned without having heard the big arguments.

form and stood directly over the death trap. He was asked if he had anything to say, but shook his head in answer. The halguman, with practiced fingers drew the black cloth over his head. As the priest was in the midst of the last prayer the executioner grasped the fatal lever. A black flag ran in the top of the pole and Joseph Arthur Campbell, murderer, wastrel and gunman, was dead.

The body was then cut down and viewed by the jury after which it was taken away by the Franciscan Friars for burial.

Under all the difficult circumstances the greatest care and expedition were used: as an efficient execution of a death sentence is not such an easy task as the sheriff's authority extended.

SPORTING

EDITED BY BASEBALLS FOOTY SPINORITY

The Camrose Athletic Club was formed
 two weeks ago with Ed. Matson as
 president and Mr. Hales as secretary.
 and now has a membership of thirty.
 The physical drill instructor is Mr. W.
 Watson of the police force and the
 drill nights are held on Monday and
 Wednesday. Saturday night is open
 for different events in the club room
 which is at present in the former Far-
 mer's store, near Martin's Garage.
 Since the opening of the club 1200
 has been spent in "gym" equipment
 and since Mr. Watson is a highly ef-
 ficient the success of the club seems
 assured.

Its efforts will not, however, be con-
 fined to indoor sports and at the pres-
 ent the management is planning to
 form baseball and football teams.
 Some of the men now members of
 the club are Dr. P.F. Smith, Mr. Rob-
 ertson, Mr. Cummings, Adolph Mat-
 land and J. O'Brien.—Camrose Canadian

VEGREVILLE BASEBALL

STARTS WITH \$600

Wat conditions put a sad quietus on
 baseball in Vegreville as elsewhere but
 with the conclusion of peace comes a
 revival of baseball enthusiasm which
 bids fair to eclipse all previous sea-
 sons. The fans turned out in force to
 the annual meeting held on April 9th
 and re-organization was effected with
 a whoop. The officers were promptly
 elected with results like the following:
 Patron: His Worship Mayor Charles
 Gordon, His Honor Judge P. A. Mor-
 rison.
 Honorary President: J. S. McCallum
 M. P. P.
 President—Wm. Clements
 Vice-President—J. H. Holden.
 Secretary—Treasury—C. Freeman.
 Manager—W. Laurenceau.
 Financial Committee—H. L. Cunningham,
 H. H. Travin, M. H. Johnston, G. G.
 Haldeman.

Managing Committee—G. G. Haldeman,
 Wm. Miller, J. Robertson.
 Membership fee was fixed at \$5 but
 no restrictions were placed on anyone
 willing to hand over more, which most
 of them did.
 A motion by Laurenceau and Kuen-
 sen was passed requesting the secre-
 tary to write the other C.N.R. towns
 with a view to forming a league.
 Haldeman and Miller moved that the
 secretary send Deacon White the min-
 utes of the meeting.

The interest shown in the game for
 this season was evidenced by the col-
 lection of cash and cheques at the
 meeting to the amount of \$244. Since
 then the baseball collectors have in-
 creased the sum to over \$600 which
 with additional donations yet sure to
 be received will let the club get away
 to a fair start. The prospects for a C.
 N. R. league are good enough and there
 is even a chance that a series of games
 may be arranged with the cheery chaps
 who infest Edmonton, Calgary and
 similar insignificant tank towns.
 —Vegreville Observer

OLD COUNTRY FOOTBALL

LONDON, April 21.—A scoreless
 draw was the result of the international
 football game played Saturday
 between Ireland and Scotland.
 In Victory Cup football games, Chelsea
 and Fulham held Crystal Palace
 and Tottenham, their respective op-
 ponents, scoreless, Chelsea winning 4 to
 0 and Fulham 2 to 0.

Following are the results of football
 and rugby games played in the Mid-
 land and Lancashire and Northern
 United.

Midland Subsidiary League
 Barnsley 1, Leicester Posse 0.
 Birmingham, Sheffield 2.
 Bradford City 2, Leeds 1.
 Coventry 1, Lincoln City 1.
 Cretingham Town 1, Hull 2.
 Sheffield United 2, Isthernham 9.
 Huddersfield Town Brentford 0.
 Lancashire Subsidiary League
 Blackburn Rovers 2, Burnley 4.
 Blackpool 0, Preston 0.
 Burny 0, Oldham 1.
 Liverpool 2, Stockport City 1.
 Manchester United 0, Stoke 1.
 Burnley Port Val 4, Manchester C. S.
 Southport Central 4, Siverton 1.
 Stockdale 1, Bolton Wanderers 2.

Scottish League
 GLASGOW, April 21.—Scheduled
 Scottish league football games played
 Saturday, and the games of the follow-
 ing clubs resulted as follows:
 Hearts, Airdrieonians 1.
 Celtic 4, Falkirk 0.
 Queen's Park 1, Dumbarton 0.
 St. Mirren 1, Patrick 1.
 Hamilton 4, Clyde 2.
 Dundee 2, Third Lanark 1.

Rugby Games—Northern Union
 Bramley 24, Bradford 6.
 Batford 6, Broughton rangers 5.
 Dewsbury 24, Haly 5.
 Halifax 43, Hull Kingston Rovers 12.
 Hunslet 16, Wakefield Trinity 9.
 Oldham 26, Swinton 11.
 Stalford 9, Leigh 6.
 Warrington 4, Rochdale Hornets 6.
 York 4, Leeds 2.
 St. Helens Rovers 10, Wigan 6.
 Hull 26, Huddersfield 6.

The trap shooters put in a strenuous
 Good Friday in getting their club house
 in shape and it now presents a straight-
 ended appearance. The trap will be re-
 paired soon and the members will soon
 be ready for "pull".

Will there be any representatives of
 Vegreville on the 24th of May for the
 competitions in Field Sports.

LOCAL JOTTINGS

Where is the girls' basket ball team
 this spring. They should not rest on
 their laurels after having suffered defeat
 last year at term. Now is the time to
 organize your team and get practicing
 so that when any outside teams are
 taken on, the story will have a different
 ending.

Last year we had an auto club. At
 least one member tells us that some-
 one took the money but outside of that
 he didn't know what became of it. The
 auto club can do lots of good road
 work if they get down to it, and now is
 the time to make a start. A road
 map to the Buffalo park from Edmon-
 ton or the surrounding towns might
 have good influence in inducing visi-
 tors to come here and see the "largest
 herd of Buffalo in the world".

Sport has jumped into prominence
 this spring greater than at any time
 during the last four years. Every town
 along the line is organizing some kind
 of a club.

What is the matter with the baseball
 club. Is it time they were getting busy
 if they want to be in the running.

The football match at the Fair
 grounds on Friday was cut short by the
 storm. The G. T. P. however plainly
 had the best of the argument as far as
 the play went and had scored two
 goals. Another game was staged on
 Tuesday evening.

The lacrosse club will receive a
 dozen new sticks this week. One half
 being left handers and one half right.
 If you want them give your name in
 to W. E. Brown.

Viking football club has sent out a
 challenge to all and sundry clubs for
 a match. Now's your chance locals to
 show what you made of.

If A. Cheetham of Greenhalde is
 another splendid addition to the base-
 ball club, he having played with east-
 ern teams and will no doubt be a
 strong addition to the team.

LACROSSE BOOMS IN OLD TOWNS

The twenty four teams entered for
 the season are: Malton 1; St. Cath-
 arines 2; Young Toronto's 3; Mimico
 1; Owen Sound 1; Cranvieve 1;
 West 1; Havelock 1; St. Simon's
 2; Beches 2; Brampton 3; Elms 2;
 Aurora 1 and Carletons 1.

ALBERTA A. U.

From the tone of a letter received
 by Secretary Leroy Chown, of the Al-
 bertas branch of the Amateur Athletic
 Union, from Tom Boyd, president of
 the Dominion body, it is quite evident
 that the officials will be willing enough
 to whitewash the records of Alberta
 boys who have infringed on the ama-
 teur rules by participating in games
 with professionals. He sounds a warn-
 ing note to athletes of this city who
 might be tempted to break away from
 the amateur union to join up with a
 new organization to govern sport.

The letter which speaks for itself,
 reads as follows:

Leroy Chown, Esq.,

Secretary A.A.U.

"Dear Mr. Chown:

"While Capt. Bob Pearson was in
 Winnipeg we took the opportunity of
 tendering him a luncheon, when the
 different leaders of lacrosse, hockey,
 baseball and other branches of sport
 in Manitoba were in attendance. In
 discussing athletics, and Alberta in
 particular, it was felt that every effort
 should be made to keep your province
 in line with the principles of clean
 sport, with no backing down or con-
 ceding anything to the element who
 are fostering and encouraging semi-
 professionalism."

"You have only to look at Montreal
 and Quebec when they tried to run
 their federation in opposition to the

MINUTES OF
 GRIZZLY BEAR
 M. D. NO. 452

Held on Monday, 11th of April.
 Reeve A. D. Green presiding and, there
 being also present, councillors A. W.
 Elliott, F. D. Hill, H. Hodgins, P.
 Stokke and A. Dixon.

Minutes of previous meeting were
 read and confirmed.

Memo submitted from Department of
 Municipal Affairs, Edmonton, advis-
 ing that the council is responsible
 for care of sick, who have been resi-
 dent over three months in the district
 —matter of Wainwright Hospital ac-
 count continued for inquiry.

Moved by Hodgins—Dixie, that the
 auditor be paid \$60.00 per year. Messrs
 A. Cochran and C. W. Lewis applied
 for position, where three voted for A.
 Cochran, Hodgins and Hill for C. W.
 Lewis, Dixon, Elliott and Stokke.

Forfeiture action against two places
 in arrears of taxes was deferred till
 next meeting.

Report made as to outlay for seed
 grain, viz: that \$3000 had been bor-
 rowed of which \$7,600 had been paid
 out to settlers. Agreed to take up the
 balance of \$10,900 of resolution of Jan.
 15th and to borrow (further if needed).

Will of late taxes, corrections and
 cancellations were noted. Parties mak-
 ing complaint of same were referred to
 the Department at Edmonton.

Claim for refund of taxes of 1918
 under the Soldiers' Homes Exemption
 Act, was submitted and agreed to
 \$59.70 to be repaid.

Agreed to make inquiry re matter
 of fencing off road allowances as re-
 ported before taking action.

Report made as to new school dis-
 trict. Triangle No. 2467, having been
 organized in the municipality with M.
 A. Nichol, sec. Treas.

Statement submitted from pound-
 keeper of impounding and sale of a
 yearling steer.

On motion of Messrs Hodgins and
 Stokke it was agreed that 2 cents
 each be paid for copper tails, brought
 to councillors.

Arrangements for season's road work
 were discussed and on motion of Dix-
 on and Elliott it was agreed to allow
 each settler \$2.00 road work for
 each quarter occupied, and to pay for
 man 10 cents per hour, man and team
 to be allowed 50 cents. Man and four
 horses 75 cents and single man 30
 cents per hour.

Mr. Hackett of Canada Iron Co.
 waited on the council and took orders
 for 4 Frysmen at \$3.35 each and 4
 road grays at \$4.45 each.

Accounts submitted and passed were
 O. H. Webster \$4.80; A. W. Elliott \$5.40
 P. B. Hill, \$4.20; Canada Iron Co.
 \$152.00; King's Printer \$5.12

A.A.U. of C. They were not asked
 could not play anywhere outside of
 their own province. This will be the
 condition with your city if your players
 enter into this project, which I under-
 stand has been headway. The leaders
 of sport here want to have national
 and inter-provincial play, so would ad-
 vise you to notify your young people
 that they are up against it if they lead
 themselves to any organization seeking
 to mix amateurs and professionals. The
 matter of not accepting money will
 not clear this.

"If, after you sound the warning,
 there will be no hope for them enter-
 ing into any sport outside their own
 province. I hope that the Alberta
 branch of the A.A.U. of C. will organize
 even if you only have one or two bod-
 ies affiliated with you to carry on the
 work. Give as wide publicity as you
 can as to what will happen to those
 parties in any contests where
 pros are allowed to mix. Keep a stiff
 backbone and you will eventually have
 the best element of your people behind
 you. Regarding those who have al-
 ready been mixed up with professionals
 I feel sure that they will then every con-
 sideration if they can take an affidavit
 that they have never taken money."

"The annual meeting of the A.A.U. of
 C. is being held next month in Otta-
 wa and two of your governors should
 attend. In the meantime in your motto
 be: "No concessions to semi-profes-
 sionalism."

Yours truly,
 THOMAS BOYD,
 President A.A.U. of C.

MASSEY-HARRIS CO.

TO DIVIDE PROFITS

TORONTO, April 21.—At a banquet Friday night before the directors of the Massey-Harris Company, Ltd., to the full staff of factory, sales and office employees here General Manager Stanley announced a new era of co-operative endeavor in connection with the Massey-Harris and all its subsidiary companies in various parts of Canada.

The schemes include old age pensions and an opportunity for all employees to acquire shares in the company on easy terms. The announce-

ment of the plan was received with much enthusiasm by the assembled employees.

HOLSTEIN COW MAKES RECORD

WOODSTOCK, April 21.—A world's record has been established by a Holstein cow, the property of J. H. Hamer, North Norwich. An official test conducted by government officials for March and April to date shows that in seven days her butter production record was 51.93 pounds, she having given 438.7 pounds of milk. In the thirty days test she gave 2,263 pounds of milk, which produced 260.34 pounds of butter.

Experimental Farm Notes

TOMATO GROWING

Where growers of tomatoes have a suitable place for starting plants it is recommended that they should grow their own stock. By careful selection from individual plants from year to year a variety may be much improved from the standpoint of earliness, uniformity and productivity. When sown in greenhouses, in a sunny window, or in a hot bed the seed should be sown in boxes or flats containing three or four inches of soil. The seeds are sown in rows about one-half inch apart from one-quarter to one-half inch deep, the soil firmly pressed down with the hand and made moist but not wet. When the rough leaves appear the latter plants are transplanted into other flats or hot beds about two inches apart each way.

Further transplanting to about six inches apart is recommended as soon as the plants commence to crowd each other. This information is taken from pamphlet No. 22 of the Central Experimental Farm which is available from the Publications Branch of the Department of Agriculture at Ottawa.

The pamphlet deals not only with tomato culture, but mushroom culture and the forcing of rhubarb during the winter season. The soil and planting for tomatoes are fully described, as well as treatment for diseases, training to the centre stem and other useful information.

SEED SOWING AND EARLY CARE OF VEGETABLES

The time of sowing the seed and the early care of vegetables are very important factors in the successful growing of them. The seed of some kinds of vegetables will germinate at a temperature and under certain conditions of moisture at which other seeds will not grow.

It will work well. The seeds germinate at relatively low temperatures and the plant will grow considerably faster without serious injury. Other vegetables which require higher temperatures than the above in order to grow well and which are injured by light frosts are beans, corn, cucumbers, melons, potatoes and squash.

Seed of late cabbage is not sown until late in May but it will endure frost, and seed of Swede turnip should be sown late when required for the table.

In order to obtain plants subject to frost before set out and to save considerable time the field, melons, eggplants, peppers and tomatoes are usually started in hot beds.

Frequently lack of germination of seed is blamed on the quality of the seed whereas it may be due to the way the seed is planted or to rotting of the seed in the ground when certain kinds

of seed have been sown too early. Small, vegetable seeds are often planted too deeply. For the smaller seeds one quarter of an inch for the smallest to one half inch for those a little larger is deep enough. If planted much deeper the seed may germinate but the shoot does not reach the surface of the ground and the tiny plant about one inch deep. In very deep soil, the surface of which dries down more than those fairly compact, slightly deeper planting may be necessary.

When the seed has germinated great care should be taken to ventilate hot beds carefully. When the young plants come up, the frame should be kept slightly aired by raising the back or higher part of the ash to prevent the plants from getting quickly or weakly when they are set to damp off. When young plants are grown in a window in a house they are often very thick in the pot and if the sun and with the surface soil wet, they are very liable to damp and rot. They should be thinned out and transplanted as soon as possible. Great care should be taken when ventilating a hot bed when the wind is high in cold weather as cold air blowing directly on the plants will injure them. A board should be put at the end of the ash to break the force of the wind.

Plants which have been growing in a hot bed or cold frame or in the house should be exposed to the open air for several days before they are set out in the field, protecting them as usual at night, as if set in the field without acclimating off in the way they are much more liable to be injured in cold or windy weather.

POTATOES—SEED AND TIME OF PLANTING

One of the strongest vitality, free from disease. While the variety used is important, the quality of the seed often makes much more difference in the yield than the variety.

Seed potatoes from a crop which grew vigorously until the tops were cut down by frost in autumn usually gave much better returns than those from a crop where the tops died up in the middle of summer. There are parts of Canada where the former can be obtained as a rule, and it is from such places that the most vigorous seed is usually obtained.

In 1918 the best seed of the Green Mountain potato yielded at the rate of 187 bushels per acre while the poorest at Ottawa. In the case of Irish Cobbler the best seed yielded at the rate of 154 bushels per acre while the poorest yielded only 28 bushels per acre, a remarkable difference. Just as striking differences have been obtained in other years.

Each grower of potatoes should aim to have a full stand of plants in the field and to have every plant a vigorous and healthy one. There is often a large proportion of misuses in potato fields and a still larger proportion of weak and diseased plants which lessen the yield enormously.

Experiments have been tried in different parts of Canada to determine the best time to plant potatoes for highest yields, and from these experiments and the experience of the best growers, the following dates are suggested for the western provinces: Manitoba, May 10-15; Saskatchewan, May 16-21; Alberta, May 19-24; British Columbia, April 1 to May 15, depending on what part of the province. The tendency has been to most places in Canada to plant later than is desirable for the following general recommendation is made:

Where the spring is early and autumn frosts early, plant early. Where the spring is early and autumn frosts are late, plant early. Where the spring is late and autumn frosts are late, early planting is not so important. Where the spring is early and autumn frosts are early, plant as soon as soil is dry enough.

GROSS EARNINGS OF C.N.R.

SHOW DECREASE

TORONTO, April 17.—Gross earnings of Canadian National Railway for the year ending April 14 were \$1,583,455, as compared with \$1,671,777 a decrease of \$88,322. From January 1 to date the gross earnings of the railway were \$25,005,753, compared with \$18,070,979, and increase of \$6,934,774.

CARE AND REPAIR OF FARM MACHINERY

A big task, usually neglected, goes through the measure, attention given farm implements. The care of farm machinery is a phase of farm management that does not usually receive the attention its importance warrants. It is the rush to get the crop into the ground at the proper time and in the best possible condition for sale, factory returns or to gain in the harvest promptly, the care due the farm implements which have made such operation possible is lacking, or performed in a more or less haphazard manner. As a consequence, part of the well-earned revenue of the farm is swallowed up in the purchase of new machinery or in expensive repairs which might have been avoided had proper precaution been taken in time.

Throughout the Experimental Farm system, attention is given, so far as circumstances permit, to this factor in farm management. All implements are cleaned and placed under cover when not in use, all polished surfaces are given an application of an anti-rust preparation—axle grease or other lubricant will answer this purpose. As shelter, many types of structures are suitable and placed under cover when not in use, all polished surfaces are given an application of an anti-rust preparation—axle grease or other lubricant will answer this purpose. As shelter, many types of structures are suitable and placed under cover when not in use, all polished surfaces are given an application of an anti-rust preparation—axle grease or other lubricant will answer this purpose.

It is desirable to get the machine after the day's work, making proper adjustments, tightening loose bolts, making sure that lubricating devices are working properly, that the bearings are not too tight or too loose and that cutting parts are sharp. An assortment of bolts, rivets, springs, etc. for each machine is provided and allotted a definite location in the tool room. This saves many trips and probably valuable time and the plan, carried out results in the prevention of many breakages. Besides, it has been proven that an implement in repair at all times has a longer life and gives more satisfactory service than one that receives erratic attention.

To carry out this work systematically a properly fitted work shop is necessary. It provides a comfortable place should be equipped with the necessary tools, including anvil, forge, weld bench, vice, tongs, hammers, harden punches, drills, square chisels, saws, wrenches, etc.

ANARCHIST GOVERNMENT

IN BAVARIA

Berlin, April 17.—The Bavarian anarchist, Souvenier, has succeeded in obtaining complete control of the new communist government in Munich, according to advices received here from the Bavarian capital.

The Wainwright Pharmacy informs us that already a great many farmers are vaccinating their cattle this spring.

There is no question but that this is a good move, seeing that every owner of cattle ought to attend to it.

It is too late, Veterinarians are agreed that there is little use trying to treat a case of Blackleg. It is easier to prevent it than to cure it. It is likely to so inoculate the soil with the infection will linger for years to come.

Since it is a well established fact that vaccination will protect against the disease, no one ought to neglect this as an opportunity, ask for information. Wainwright Pharmacy.

Since the announcement was made that the Prince Rupert Dry Dock and Engineering Co. had leased from the Grand Trunk Pacific Railway the shipbuilding plant and dry docks and commenced active work on the construction of two 100 ton freighters, Prince Rupert has taken on a new air of activity. Mr. Norman Erb, of New York, Chairman of the Board of the Prince Rupert Dry Dock and Engineering Co. recently addressed the Canadian Club. He said that with the abilities of Prince Rupert and with the wonderful, almost limitless natural resources of the territory tributary, minerals, timber, fisheries, coal and hydropower, most surely must develop population, industries and commerce.

So far as the shipbuilding industry is concerned, the whole project, Mr. Erb said, needed a vitalizer in the way of Oriental traffic and a fleet of steam vessels to ply from Prince Rupert to Oriental ports including Japan, China, Vladivostok and Manila, the fleet to include eight or ten 1,000 and 8,800 ton freighters was required if the Dominion government would assign ten of the ships they are building to operate between Prince Rupert and the Orient, and did not choose to operate them and private control of such fleet was preferable, he felt justified in saying that there were people who had sufficient confidence in the success of the venture to invest in such an undertaking.

Eight Good Reasons Why You Should Buy a De Laval

GREATER CAPACITY—New capacities have been increased 10 per cent without increase of speed or effort required in operation.

SKIMS CLOSER—The improved bowl design, together with the patented milk distributor gives greater skimming efficiency.

EASIER TO WASH—Simple bowl construction and discs caulked only on the upper side make the bowl easier to wash.

EASIER TO TURN—The low speed of the Le Laval Bowl, the short crank, its unusually large capacity for the size and weight of the bowl, and its automatic tilting throughout, make it the easiest to turn and least tiring to the operator.

THE MAJORITY CHOICE—More De Laval are sold every year than all other makes of separators combined. More than 2,325,000 are in daily use—thousands of them for 15 or 20 years.

TIME TESTED—The De Laval was the first cream separator. It has stood the test of time and maintained its original success and leadership for 40 years the world over.

EQUIPPED WITH SPEED INDICATOR—Every new De Laval is equipped with a Bell Speed-Indicator, the "Warning Signal" which insures proper speed, full capacity, thorough separation and uniform cream at all times.

SERVICE WHEN YOU NEED IT—The world wide De Laval organization, with agents and representatives ready to serve users in almost every locality where cows are milked, insures the buyer of a De Laval quick and efficient service whenever he needs it.

Order your De Laval now and let it begin saving cream for you right away. Remember that a De Laval may be bought for cash or on such liberal terms as to save

Gillespie Elevator Co. LIMITED

OPPOSITE THE POST OFFICE W. JERMYN Mgr. Head Office, Edmonton, Alta.

IN THE MATTER OF THE WAINWRIGHT LIGHT AND POWER COMPANY LIMITED

IN THE MATTER OF THE COMPANIES WINDING UP ORDINANCE, 1903.

NOTICE IS HEREBY given that at a general meeting of the above named company The Wainwright Light and Power Company Limited held at Wainwright in the Province of Alberta on Friday the 28th day of February 1919 an extraordinary resolution of the said Company was duly passed whereby it was resolved that the said company be wound up and that W. E. Kenny and H. Y. Pawling both of Wainwright aforesaid be liquidators of said company for the purposes of such winding up.

Now in pursuance of said resolution and of the said above mentioned act, notice is hereby further given that all persons having any claims or demands against the said company are required on or before the 12th day of June A.D. 1919 to send by postcard or to deliver to the undersigned Solicitors for the said Liquidators, their names and addresses and full particulars in writing of their claims and statements of their accounts and the nature of the securities, if any, held by them.

And take notice that after the said 12th day of June A.D. 1919 the said liquidators shall be at liberty to distribute the assets of the Company or any part thereof amongst the parties entitled thereto, having regard to the claims of which they shall then have had notice and that the liquidators shall not be liable for the assets or any part thereof so distributed, to any person of whose claim such liquidators had not notice at the time of distributing the said assets or part thereof as he case may be.

Dated at Wainwright in the Province of Alberta this 8th day of April A.D. 1919.

Fieldhouse and Boyd, Solicitors for the said Liquidators

24-4 Wainwright, Alberta

PROCLAMATION

By Virtue of the power vested in me, and also on the recommendation of the council, I hereby proclaim and declare the morning of Friday, the 2nd day of May, 1919, to be a public holiday.

The purpose is for every citizen to take advantage of the day to visit the town in the "Cleaning process" of your premises, which means that not only from a sanitary point of view but it will add greatly to the general beautification of your surroundings.

By Order,
Nicholas Samuel Kenny, Mayor
Wainwright, April 22nd, 1919.

PROVINCIAL HOUSE PROROGUED
LAST THURSDAY—LIST OF BILLS

After shuffling on both sides had brought the legislature to what looked like an impasse, the way of adjournment, Thursday, the leaders finally got together and by special arrangement all business was finished up, the Lieutenant Governor came in and gave assent to the bills, and the house prorogued at 11 o'clock Thursday night.

The arrangement included an agreement by James Weir, (Non-Partisan) Minister, not to press his tariff and wheat price-fixing resolutions and to withdraw his objections to a suspension of the rules in order to pass the "Fifty-Fifty" bill insurance company bill. The measure got its third reading and was passed. On the other hand, J. S. McCallum, (Gov.) Vegetables, did not get his resolution asking the house to memorialize the federal government to make a cash grant of \$5,000 to soldiers who served overseas passed either.

The resolutions were not really withdrawn but the arrangement was such that the Lieutenant Governor came in and gave his assent to the bills before the house got down to them, and prorogation was then accomplished.

Bills Given Assent

The list of bills passed by the house and to which the Lieutenant Governor gave his assent include the following:

An act to amend Chapter 40 of the Statutes of Alberta, 1918, being "an act to incorporate the United Assurance Company."

An act to amend the act incorporating the Canada Security Assurance Company, being Chapter 57 of the Statutes of Alberta, 1918.

The \$6.50 Mutual Life Insurance Society.

An act to incorporate the Medicine Hat Central Railway company.

An act to authorize the revision of the ordinances of the North West Territories and the Acts of the Province of Alberta, and the consolidation thereof of the Statutes of Alberta.

An act to regulate Billiard Rooms and Bowling Alleys.

An act to amend the Ordinance and Acts relating to the city of Red Deer.

An act to amend the Acts and Ordinances constituting the Charter of the City of Calgary.

An act to incorporate the South Hill Hospital, Edmonton.

An act respecting an act to incorporate the Calgary Hospitals, Board.

An act to amend the Lethbridge City Charter.

An act to Establish the Alberta Government Employment Bureau.

An act respecting Employment Office.

An act to amend the Power Act.

An act granting assistance to Widowed Mothers Supporting Children.

An act to amend the Medicine Hat Charter.

An act to amend the acts constituting the Edmonton Charter and to validate and confirm an agreement made between the City of Edmonton and the Edmonton School District No. 7 and other agreements arising thereout, and to validate certain bylaws.

An act respecting the Department of Public Works.

The Public Health Nurses' Act.

The Municipal Hospitals Act.

An act to amend the Women's Institute Act.

An act to incorporate the Drumheller Club of Drumheller.

An act to amend an Act respecting Public Printing.

An act to amend the Financial Act.

Conditions of Municipalities.

An act respecting Affairs of Taxes.

An act to allow the issue of Debentures for the Payment of Indebtedness contracted in fighting the Spanish influenza.

An act to Validate Assessments made in 1918 by Certain Towns.

An act to amend the Alberta Pharmaceutical Association act.

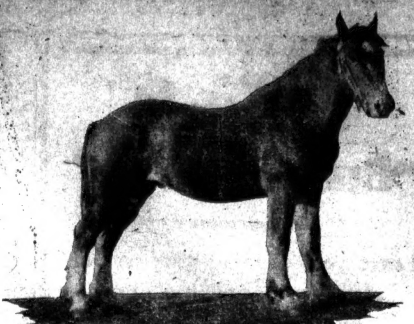

An act to provide for the discovery of Taxes.

An act to amend the Land Titles Act.

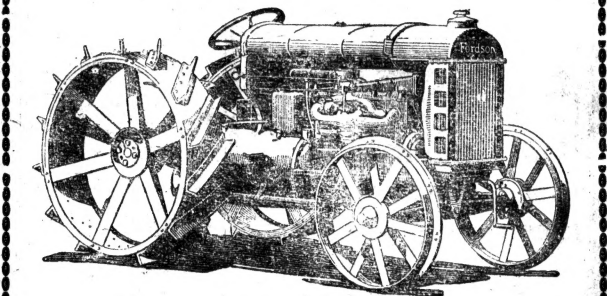

An act respecting the Votes of the Province of Alberta.

The Fordson Tractor
AT A GLANCE

THE FORDSON IS LIGHT—weighs only 2700 pounds.
THE FORDSON TRACTOR is economical—both to buy and to operate—two gallons of kerosene per acre plowed is a fair average.
THE FORDSON TRACTOR is powerful—will pull 14 inch plows in the stiffest soil or drive a threshing machine—maintains 1800 pounds drawbar pull at plowing speed—2500 pounds on low gear. Twenty to twenty-two horse-power is available at the belt pulley.
THE FORDSON TRACTOR IS DURABLE—simple, rugged, accessible in design with few parts. The tough cast steels which science can produce are used to give strength and durability instead of depending on heavy masses of metal. All moving parts are enclosed and lubricated—air is washed clean to protect the motor. LIBERAL TERMS—IMMEDIATE DELIVERY.

HEREAFTER Ford One-Ton Trucks may be bought complete with bodies and cabs, ready for the road.

The body as well as the chassis will be planned to give Ford service.

This will insure the utmost efficiency from the Ford Truck; give the purchaser Ford value in every part of his truck; produce better bodies at lower prices.

Two types of Truck bodies, the Stake and the Express, will be kept in stock, set up, painted

(or in the lead) and ready for prompt delivery.

They have oak floors, sills of seasoned hickory and specially designed foggings and castings.

The construction at every point provides for rough usage such as every truck is bound to get. Both bodies have closed cabs to protect the driver.

These cabs have sliding windows and two-way, double ventilating windshields.

Call and learn what it will cost to use these complete trucks in your business. Look them over carefully. See how they outclass other trucks in every detail.

Price (Chassis only) \$750 U.S.A. Ford, Ont.

Standard Ford Bodies extra. Get our prices.

MASSEY-HARRIS CO.

TO DIVIDE PROFITS

TORONTO, April 31.—At a banquet Friday night to the directors of the Massey-Harris Company, Ltd., the full staff of factory, sales and office employees here General Manager Fladway announced a new era of co-operative endeavor in connection with the Massey-Harris and all its subsidiary companies in various parts of Canada.

The schemes include old age pensions and an opportunity for all employees to acquire shares in the company on easy terms. The announcement of the plan was received with much enthusiasm by the assembled employees.

HOLSTEIN COW MAKES RECORD

WOODSTOCK, April 31.—A world's record has been established by a Holstein cow, the property of J. B. Hammett, North, Norwich. An official test, conducted by government officials for March and April to date shows that in seven days her butter production record was 51.93 pounds, she having given 337.7 pounds of milk. In the thirty days test she gave 2,002.3 pounds of milk, which produced 250.24 pounds of butter.

Experimental Farm Notes

TOMATO GROWING

Where growers of tomatoes have a suitable place for starting plants it is recommended that they should grow their own stock by careful selection from individual plants from year to year. A variety may be much improved from the standpoint of earliness, and simply, and productiveness. When sown in greenhouses in a sunny window, or in a hot bed the seed should be sown in boxes or flats containing three or four inches of soil. The seed is usually sown in rows about four inches apart from one-quarter to one-half inch deep, the soil firmly pressed down with the hand and made moist but not wet. When the rough leaves appear the little plants are transplanted into other flats or hot beds about two inches apart each way.

Further transplanting to about six inches apart is recommended as soon as the plants commence to crowd each other. This information is taken from pamphlet No. 22 of the Central Experimental Farm which is available from the Publications Branch of the Department of Agriculture at Ottawa. The pamphlet deals not only with tomato culture, but mushroom culture and the forcing of rhubarb during the winter season. The soil and plants for tomatoes are very difficult as well as treatment for diseases, training to the centre stem and other useful information.

SEED SOWING AND EARLY CARE OF VEGETABLES

The time of sowing the seed and the early care of vegetables are very important factors in the successful growing of them. The seed of some kinds of vegetables will germinate at a temperature and under certain conditions of moisture at which other seeds will not germinate and will sometimes rot.

Seeds of beets, carrots, lettuce, onions, parsnips, peas, radishes, garden cress, asparagus, parsley and leek can be sown as soon as the ground is dry enough in the spring so that it will work well. The seeds germinate at relatively low temperatures and the plants will stand considerable frost without serious injury. Other vegetables such as cabbage, cauliflower and celery will also stand frost but these are usually started in a hot bed in order to save time in the field.

Vegetables which require higher temperatures than the above in order to grow well and which are injured by light frosts are beans, corn, cucumbers, melons, potatoes and squash.

Seed of late cabbage is not sown until late in May but it will endure frost, and seed of Swede turnip should be sown late when required for the table.

In order to obtain plants subject to light frosts, which are well advanced before being set out and to have considerable time in the field, melons, eggplants, peppers and tomatoes are usually started in hot beds.

Frequently lack of germination of seed is blamed on the quality of the seed whereas it may be due to the way the seed is planted or to rotting of the seed in the ground when certain kinds

of seed have been sown too early.

Small vegetable seeds are often planted too deeply. For the smaller seeds one quarter of an inch for the smallest to one half inch for those a little larger is deep enough. If planted much deeper the seed may germinate but the shoot does not reach the surface of the ground and the tiny plant dies. Peas, corn and beans are planted about two inches deep. In very loose soil, the surface of which dries down more than those fairly compact, slightly deeper planting may be necessary.

When the seed has germinated great care should be taken to ventilate hot beds carefully. When the young plants come up, the frame should be kept sufficiently ajar to raising the back or higher part of the ash to prevent the plants from getting scalded or weakly when they are apt to damp off. When young plants are grown in a window is a house they are often very thick in the pot and if the sun and with the surface soil wet, they are very liable to damp and scald. They should be thinned out and transplanted as soon as possible. Great care should be taken when ventilating a hot bed when the wind is high in cold weather as cold air blowing directly on the plants will injure them. A board should be put at the end of the ash to break the force of the wind.

Plants which have been growing in a hot bed or cold frame or in the house should be exposed to the open air for several days before they are set out in the field, protecting them as usual at night. If set in the field without acclimating off in the way they are much more liable to be injured in cold or windy weather.

POTATOES—SEED AND TIME OF PLANTING

The yield of potatoes throughout Canada would be very much increased if everyone who grows potatoes used seed of the highest vitality, free from disease. While the variety used is important, the quality of the seed often makes much more difference in the yield than the variety.

Seed potatoes from a crop which never vigorously sprout the top "set" cut down by frost in autumn usually give much better returns than those from a crop where the tops dried up in the middle of summer. There are parts of Canada where the former condition obtains as a rule and in such places that the most vigorous seed is usually obtained.

In 1918 the best seed of the Green Mountain potato yielded at the rate of 387 bushels per acre while the poorest seed yielded only 57 bushels per acre at Ottawa. In the case of Irish Cobbler the best seed yielded at the rate of 616 bushels per acre while poor seed yielded only 36 bushels per acre, a remarkable difference. Just as striking differences have been obtained in other years.

Good growers of potatoes should aim to have a full stand of plants in the field and to have every plant a vigorous and healthy one. There is often a large proportion of misuses in potato fields and a still larger proportion of weak and diseased plants which lessen the yield enormously.

Experiments have been tried in different parts of Canada to determine the best time to plant potatoes for highest yields, and from these experiments and the experience of the best growers, the following dates are suggested for the western provinces: Manitoba, May 10—15; Saskatchewan, May 10—24; Alberta, May 10—24; British Columbia, April 1 to May 15, depending on what part of the province. The tendency has been most places in Canada to plant later than is desirable for highest yields. From results obtained the following general recommendation is made:

Where the spring is early and autumn frosts early, plant early. Where the spring is early and autumn frosts are late, plant early. Where the spring is late and autumn frosts are late, early planting is not so important. Where the spring is early and autumn frosts are late, early planting is not so important. Where the spring is early and autumn frosts are late, early planting is not so important.

GROSS EARNINGS OF C.N.R.

SHOW DECREASE

TORONTO, April 31.—Gross earnings of Canadian National Railway for the year ending April 31 were \$1,583,468, as compared with \$1,671,737 a decrease of \$88,269. From January 1 to date the gross earnings of the railway were \$25,605,753, compared with \$18,970,793, and increase of \$6,634,960.

CARE AND REPAIR OF FARM MACHINERY

A big task, usually unacknowledged, occurs through the season's attention given farm implements. The care of farm machinery is a phase of farm management that does not usually receive the attention its importance warrants. The result to get the crop into the ground at the proper time and in the best possible condition for soil, factory returns or to gather in the harvest promptly, the care due the farm implements which have made each operation possible is lacking or performed in a more or less haphazard manner. As a consequence part of the potential revenue of the farm is swallowed up in the purchase of new machinery or in expensive repairs which might have been avoided had proper prevention been taken in time.

Throughout the 23rd annual Farm system, attention is given, so far as circumstances permit, to this factor in farm management. All implements are cleaned and placed under cover when not in use. All polished surfaces receive an application of an anti-rust preparation—sawdust or other lubricant will answer this purpose. As shelter, many types of structure are suitable and an expenditure not exceeding \$400.00 will usually provide a suitable building. Besides it is not always necessary to go in this expense since any weather-proof building available will answer the purpose.

It is advisable to go over the machine after the day's work, making proper adjustments, tightening loose bolts, making sure that the rotating devices are working properly, that the bearings are not too tight or too loose, and that cutting parts are sharp. An assortment of bolts, rivets, springs, etc. for each machine is provided and allotted a definite location in the tool room. This saves many trips, and probably valuable time and the plan, carried out results in the prevention of many breakdowns. Besides it has been found that an implement in repair at all times has a longer life and gives more satisfactory service than one that receives erratic attention.

To carry out this work systematically a properly fitted workshop is necessary. It provides a comfortable place to work in during bad weather and in which those who so desire may develop their mechanical skill. It should be equipped with the necessary tools, including anvil, forge, work bench, vise, tongs, hammers, hardies, punches, drills, square chisels, saws, wrenches, etc.

ANARCHIST GOVERNMENT

IN BAVARIA

Berlin, April 17.—The Bavarian anarchist, Boudinier, has succeeded in obtaining complete control of the new communist government in Munich, according to advices received here from the Bavarian capital.

The Wainwright Pharmacy informs us that already a great many farmers are buying Blacklegoids, prophylactic to vaccinating their cattle this spring. There is no question but that this is good more; something that every owner of cattle ought to attend to before it is too late. Veterinarians are agreed that Blackleg is the one use trying to treat a case of Blackleg. It is almost invariably fatal and a single case is likely to so infect the soil with germs that the infection will linger for years to come.

Since it is well established fact that vaccination will protect against the disease, no one ought to neglect this opportunity, ask for information. Wainwright Pharmacy.

Since the announcement was made that the Prince Rupert Dry Dock and Engineering Co. had leased from the Grand Trunk Pacific Railway the shipbuilding plant and dry docks and commenced active work on the construction of two 8100 ton freighters, Prince Rupert has taken on a new air of activity. Mr. Newman Erb, of New York, Chairman of the Board of the Prince Rupert Dry Dock and Engineering Co. recently addressed the Canadian Club. He said that with the magnificent harbor and shipping possibilities of Prince Rupert and with the wonderful, almost limitless natural resources of the territory tributary, in minerals, timber, fisheries, coal and by electric, most surely must develop population, industries and commerce.

No far as the shipbuilding industry is concerned, the whole project, Mr. Erb said, needed a vitalizer in the way of Oriental traffic and a fleet of steam vessels to ply from Prince Rupert to Oriental ports including Japan, China, Vladivostok and Manila. The fleet to include eight or ten 8,100 and 8,800 ton freighters was required if the Dominion government would assign part of the ships they are building to operate between Prince Rupert and the Orient, and did not choose to operate them and private control of such fleet was preferable, he felt justified in saying that there were people who had sufficient confidence in the success of the venture to invest in such an undertaking.

Eight Good Reasons Why You Should Buy a De Laval

GREATER CAPACITY.—New capacities have been increased 10 per cent without increase of speed or effort required in operation.

SKIMS CLOSER.—The improved bowl design, together with the patented milk distributor gives greater skimming efficiency.

EASIER TO WASH.—Simple bowl construction and discs caulked only on the upper side make the bowl easier to wash.

EASIER TO TURN.—The low speed of the Le Laval Bowl, the short crank, its unusually large capacity for the size and weight of the bowl, and its automatic oiling throughout, make it the easiest to turn and least tiring to the operator.

THE MAJORITY CHOICE.—More De Laval are sold every year than all other makes of separators combined. More than 2,325,000 are in daily use—thousands of them for 15 or 20 years.

TIME TESTED.—The De Laval was the first cream separator. It has stood the test of time and maintained its original success and leadership for 40 years the world over.

EQUIPPED WITH SPEED INDICATOR.—Every new De Laval is equipped with a Bell Speed Indicator, the "Warning Signal" which insures proper speed, full capacity, thorough separation and uniform cream at all times.

SERVICE WHEN YOU NEED IT.—The world wide De Laval organization, with agents and representatives ready to serve users in almost every locality where cows are milked, insures the buyer of a De Laval quick and efficient service whenever he needs it.

Order your De Laval now and let it begin saving cream for you right away. Remember that a De Laval may be bought for cash or on such liberal terms as to save

Mid-week Institute will be held on Wednesday, April 24th. There will be no choir practice this week on a account of the Cantata and concert in the Elbow Theatre.

HOW MONEY GROWS

The following is a good example of how money grows.

"Postmaster Thompson had an interesting experience a few days ago, when, a farmer, living near Jarvis, called with a savings bank book, which his father who died three or four years ago, had left, and desired to draw the amount to his credit. Examination disclosed the fact that the year of the Franco-Prussian war, away back in 1870, the father had made a deposit of \$40, which due to the interest 45 years had laid at Ottawa undisturbed, so far as the depositor was concerned. The book was sent to Ottawa and a computation of the interest showed something over \$221 to the credit of the depositor. This, after certain necessary formalities had been completed with, was paid over. The experience is a good illustration of how money makes money, even at the low rate of three per cent interest."

RHEUMATIC PAINS

Quickly Eased By Penetrating

Hamlin's Wizard Oil

A safe and harmless preparation to relieve the pains of Rheumatism, Sciatica, Lame Back and Lumbago is Hamlin's Wizard Oil. It penetrates quickly, drives out soreness, and limbers up stiff aching joints and muscles.

You will find almost daily uses for it in cases of sudden mishaps or accidents such as sprains, bruises, cuts, burns, bites and stings. Just as reliable, too, for carache, toothache, cramp and colic.

Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30 cents. Guaranteed.

FOR RENT—Farm 4 1/2 miles from Wainwright, 125 acres broken, three strand fence, good buildings. Apply the Imperial Lumber Co. 281c

Locals

Jack Stewart of Edmonton was a visitor over the week end.

W. Gano has purchased the residence of Mr. Greer this week.

St. D. Mills is moving to the suite of rooms above Mrs. Wilcox's.

Miss Beale Aldridge spent Easter week with friends in the capital.

Mrs. E. Batty left last Sunday for Edmonton to visit her sister Mrs. J. P. Moffat for a couple of weeks.

N. O. Van Dyke, Secretary of M.D. of Vol. 432, was a business visitor to town this week.

J. Reid, A. Reid and Wm. Cunningham of Maradon, Sask. were visitors to town on Monday last.

Painters are busy at the G.T.P. yards this week, at present working on the big water tank.

Donny Hodgkins spent the Easter holidays with friends on the C. and P. line south of Edmonton.

J. Telford is erecting a residence opposite the Methodist Church, and when completed will be rented to Dr. H. H. Lockwood.

The dance on Easter Monday was well patronized and a good crowd present. The proceeds of the dance were donated to the baseball club.

W. S. Goulet is getting his big tractor ready and will soon start on a plowing contract of 500 acres just north of the river.

The residence of Mr. E. Carbert and Mr. Primrose in the east end of town has this week received a fresh coat of paint.

Capt. O. L. Hudson left for Edmonton Tuesday where he will attend the banquet given in honor of General Griestbach. He will return Saturday.

Spring operations on the land are becoming general now. The moisture falls so far has made it a great deal easier to plow.

Mrs. E. Carbert, who has resided in Wainwright for the past year, will leave the end of this month for Edmonton where she will make her home in the future.

Mrs. J. Ward is expected home this week. She left for Toronto last fall and while there was a victim of the flu. Mrs. Ward, her son will arrive with the last Friday of yesterday.

The football club will journey to Vermilion on May 24th to play a game. Vermilion will hold a big sports day and many outside teams will be on hand.

Mayor and Mrs. Kenny entertained the members of the council and friends on Tuesday evening, when a very delightful and entertaining evening was spent.

Ansel Kenny, recently returned from overseas has again taken up his position as bagpiper at the local depot. Walter Taylor, who has been acting in the above office left Monday for Biggar, where he has accepted a position.

Captain G. L. Hudson wishes through the medium of the paper, to heartily thank the people of the town for his welcome when he returned last Saturday. He expresses his pleasure in again being home and welcomed the opportunity to again shake hands with his many friends here.

Oddfellows

All Oddfellows and visiting members are asked to assemble at their lodge room in the Washburn block at 3 p.m. sharp, Sunday, April 27th, to attend the G.W.V.A. Memorial service in the Theatre building. And also to bear in mind that at 7 p.m. on the same Sunday they are again to assemble to parade in regalia to the Methodist Church to attend Divine Service at the occasion of the centenary of Oddfellowship.
